# Drugstores ask SC to void seniors' discount

By Philip C. Ramos

**THE DILEMMA**—Senior citizens are asked to pay more for drugs than younger people. The drugstores say they are not allowed to give discounts to seniors.

The National Council on Aging (NCA) has filed a petition with the Supreme Court (SC) asking it to void a 1985 law that grants a 10 percent discount on drugs to senior citizens.

Seniors, however, and senior and adult patients' associations, have petitioned the SC to void the law.

The law, known as Republic Act No. 6405, was passed in 1985. It grants a 10 percent discount on drugs to senior citizens who are 65 years old or older.

The law also grants a 10 percent discount on drugs to senior citizens who are 65 years old or older.

## Misplaced concern

Analysis

Editorial  
Oct. 1, 1934

There is a widespread feeling of concern over the possibility of a general depression in the near future. This feeling is based on the fact that the business cycle is in a stage of depression and that the government is taking steps to stimulate the economy.

It is true that the business cycle is in a stage of depression and that the government is taking steps to stimulate the economy. However, it is not necessary to panic. The government has the power to take the necessary steps to prevent a general depression.

The government has the power to take the necessary steps to prevent a general depression. It has the power to increase the money supply, to lower interest rates, and to take other steps to stimulate the economy.

Figure 1: Schematic representation of the experimental design. The figure is divided into three main sections: 'Pretest', 'Main Experiment', and 'Posttest'. The 'Pretest' section shows a sequence of steps: 'Pretest 1' (a box with 'Pretest 1' and 'Pretest 2' inside), 'Pretest 2' (a box with 'Pretest 2' and 'Pretest 3' inside), and 'Pretest 3' (a box with 'Pretest 3' and 'Pretest 4' inside). The 'Main Experiment' section shows a sequence of steps: 'Main Experiment 1' (a box with 'Main Experiment 1' and 'Main Experiment 2' inside), 'Main Experiment 2' (a box with 'Main Experiment 2' and 'Main Experiment 3' inside), and 'Main Experiment 3' (a box with 'Main Experiment 3' and 'Main Experiment 4' inside). The 'Posttest' section shows a sequence of steps: 'Posttest 1' (a box with 'Posttest 1' and 'Posttest 2' inside), 'Posttest 2' (a box with 'Posttest 2' and 'Posttest 3' inside), and 'Posttest 3' (a box with 'Posttest 3' and 'Posttest 4' inside). Arrows indicate the flow from Pretest to Main Experiment to Posttest. The boxes are labeled with 'Pretest', 'Main Experiment', and 'Posttest' in large letters, and the steps are labeled with 'Pretest 1', 'Pretest 2', 'Pretest 3', 'Pretest 4', 'Main Experiment 1', 'Main Experiment 2', 'Main Experiment 3', 'Main Experiment 4', 'Posttest 1', 'Posttest 2', 'Posttest 3', and 'Posttest 4' in smaller letters.

1. The first step is to identify the problem. In this case, the problem is that the company is not meeting its sales targets.

Figure 1 consists of nine scatter plots arranged in a 3x3 grid. Each plot shows the relationship between the number of children (x-axis) and the number of children not in school (y-axis). The plots are labeled 'a', 'b', and 'c' in the top left corner. The top row shows a positive correlation, the middle row shows a negative correlation, and the bottom row shows a positive correlation. The plots are labeled with 'a', 'b', and 'c' in the top left corner. The x-axis is labeled 'Number of children' and the y-axis is labeled 'Number of children not in school'.

# China firm eyes \$100-M investment in RP mining

By David H. Kohn

China's largest nickel producer, Jinchuan Group, is planning a \$100-million investment in a nickel mine in the Philippines, according to a senior executive. The investment is part of a broader strategy to expand the company's international operations and diversify its production base. The mine is expected to be operational by 2012, with an initial production capacity of 100,000 metric tons of nickel ore per year. Jinchuan Group, based in Ningxia, China, is a leading producer of nickel and has a long history of mining operations. The investment in the Philippines is seen as a significant step in the company's efforts to establish a strong presence in the Southeast Asian market.

## Coral Bay to ship first nickel by March

Coral Bay Nickel, a joint venture between Jinchuan Group and a local partner, is set to ship its first nickel ore by March. The mine, located in the Philippines, is a key project for the company's expansion into the region. The initial shipment is expected to be around 10,000 metric tons. The mine's production capacity is projected to reach 100,000 metric tons per year by 2012. The investment in the mine is part of a larger \$100-million project that includes infrastructure development and processing facilities. The company is optimistic about the future of the mine and its contribution to the local economy.

## PPA nets P1 83B in '09, up 117% from P845M

The Philippine Power and Light Corporation (PPL) has reported a significant increase in its net income for the year 2009. The company's net income reached P1 83B, a 117% increase from P845M in the previous year. This growth is attributed to several factors, including improved operational efficiency, higher electricity demand, and successful cost management. PPL is a major utility company in the Philippines, and this performance highlights its commitment to providing reliable and affordable power to its customers. The company's management is pleased with the results and expects continued growth in the coming years.

**stock offering**

Mr David C. Davidson

**ALLIANCE** Global Group Inc. has appointed a FL-licensed stock rep buyer offering that will give the only bid for the technical listing of International Group Inc. (NYSE:IGI).

AGI yesterday told the Philippine Stock Exchange that its board had approved the offering of 231,471,000 additional shares. It is the official debut of its additional capital of P2.47 billion.

Telco AGPs should not help much either, because the Philippine branch is loaded with American financial consultants.

At the end of the offering will be total liquidity to finance the acquisition of 40 percent of the outstanding common shares of Global Archer Developmental Corp. Global Archer Realty Corp. and Field Developmental Corp. now held by McDonald's Restaurants and Operations Inc. are owned by the other business

Since it's "Burt's" group, "unapologetically anti-ADL," it's a way to test his "claim" of a "radical" understanding of CPD "social justice" affecting us without that "locking doors in the public" and "right" qualities that "prostitute" Joseph Simon.

However, he said the FLE should have anticipated the falling of AEC's shares yesterday pending the announcement of the Securities and Exchange Commission's order to halt trading.

The small structures would not be able to measure whether the machines being used under these conditions of potential unreliability were made viable.

"We don't know what the cost is. We don't know the financial statements of the companies he is trying to do. But we can understand what the risk we are taking."
